GENERAL SECRETARIAT

Sanctions the proposals for intensifying the cultivation of Kar-Ragi and Paddy in the State during the summer season of 1949.

READ—

Government Order No. A.F. 3841-6—Agri. 196-45-2, dated 7th February 1946, sanctioning the recommendations of the Director of Agriculture regarding the grant of certain concessions for the cultivation of irrigated ragi in the Irwin Canal area during the summer of 1946.

2. Letter No. G.M.Fc. 4—48-9, dated 6th February 1949, from the Revenue Commissioner, forwarding proposals for intensifying the cultivation of Kar-Ragi and Paddy in the State during the summer season of 1949.

ORDER No. A.F. 4881-95—Agri. 156-48-2, BANGALORE, DATED 11TH FEBRUARY 1949.

In view of the serious shortage of ragi in the State owing to unfavourable seasonal conditions in 1945, a scheme for the cultivation of Ragi in the Irwin Canal tract during the summer season of 1946 was sanctioned, in Government Order dated 7th February 1946 read above and special concessions granted to the raiyats. These concessions were continued during the years 1947 and 1948. The situation this year continues to be serious owing to the partial failure of the ragi crop last monsoon and the reduced allotments expected from the Central Government, and it is considered that more intensified drive for growing irrigated ragi this summer has to be taken up immediately covering the whole State. The Revenue Commissioner has therefore submitted necessary proposals for the cultivation, on a larger scale, of irrigated ragi and paddy during the summer season of 1949, in consultation with the Director of Agriculture and the Chief Engineer for Irrigation.

The Revenue Commissioner reports that the Chief Engineer for Irrigation has examined the possibilities of cultivating kar-ragi with reference to the availability of water in the main

reservoirs and channels and has opined that an area of not less than 25,000 acres could be brought under kar-ragi (and kar-paddy) this summer as noted below. —

Probable Kar-ragi cultivation, 1949.

1	Irwin Canal tract ... 10,000 Krishnarajasagar 2,500 Water-spread. Below Krishnarajasagar 5,000	...	17,500	
2	Extra with release of storage for power.		4,000	Subject to the reduction of demand from Krishnarajasagar for power.
3	Bunding up of hallas	...	1,000	subject to the permission to bund up Lokapavani.
4	Other Reservoirs, Channels and Tanks.		4,000	
5	Lift Irrigation (if possible immediately.)		400	
		Total ...	26,900	Acres or 1,34,500 pallas yield

In order to bring this scheme into operation the Chief Engineer requests that the following facilities, involving an expenditure of one lakh of rupees, may be provided—

1. That no sugarcane shall be planted afresh in the Irwin Canal tract from February to June 1949.

2. That a sum of Rupees forty thousand (Rs. 40,000) be sanctioned for the bunding up of major hallas such as Lokapavani, Nagaraghatta, Kateri, Kennal, etc. (This will help to feed C. D. S. channel and to give water to an area of about 1,000 acres for kar-ragi cultivation.

3. That a sum of Rs. 40,000 be sanctioned for putting up temporary bunds over Hullahalli and Madhavamantri Anicuts so as to provide the necessary quantities of water for power generation at Sivasamudram, thus releasing an equal quantity of water from Krishnarajasagar for kar-ragi cultivation.

4. That a sum of Rs. 10,000 be sanctioned for filling up breaches of four major tanks temporarily in Irwin Canal Tract. (This will give an extent of 1,000 acres under kar-ragi in Maddur and Malvalli Taluks).

5. That the sum of Rs. 10,000 be sanctioned to meet other unforeseen charges and employment of additional establishment, etc.

In addition to these temporary measures, the Chief Engineer has formulated a scheme for the supply of electric power to Nilsoge in T.-Narsipur Taluk for lift irrigation at a cost of rupees two lakhs, by which an area of 400 acres is expected to be brought under the cultivation of kar-ragi at once in this village. This is a measure of permanent benefit since it is expected that kar-ragi can be grown in this area, every summer, in addition to other crops in the remaining months of the year.

The Revenue Commissioner further reports that the Director of Agriculture has stated that in view of the fact that seeds and manures worth Rs. 15 per acre at concession rates were being issued free of cost to raiyats during the last three years, the same concessions may be continued this year also in respect of kar-ragi cultivation. In addition to the area of 25,000 acres proposed by the Chief Engineer for Irrigation it is hoped to get another 5,000 acres in the Districts of Tumkur Chitaldrug, Kolar and Bangalore/making in all 30,000 acres under kar-ragi and paddy. A sum of Rs. 4,50,000 is therefore required towards the cost of seeds and manures for the kar-ragi scheme and it is stated that this amount can be met out of the grants allotted under seeds and manures to the Department of Agriculture. These seeds and manures are proposed to be supplied to the raiyats subject to the following conditions.

1. The cost of seed and manure distributed to kar-ragi and paddy growers to be treated as a free issue, provided one palla of kar-ragi or three pallas of paddy per acre as the case may be, is surrendered to Government by each raiyat at controlled price.

2. If any raiyat fails to discharge this obligation to Government a penalty of Rs. 40 per acre to be levied from him in the case of kar-ragi and Rs. 60 per acre in the case of paddy. The amount so levied as penalty to be collected as an arrear of Land Revenue.

3. Mutchalika in proper form embodying the above conditions to be obtained from the raiyats before the issue of seed and manures.

For stocking seeds, manures and implements 60 depots are proposed to be opened in the interior villages, at the rate of one sub-depot roughly for every 500 acres under kar-ragi, with the necessary staff of fieldmen for a period varying from three to four months.

In order to meet the cost of this extra establishment and the depot rents, the Director of Agriculture requests the sanction of Government to a grant of Rs. 10,000 in addition to the usual lumpsum grant of Rs. 25,000 sanctioned to the Department every year under Grow More Food Campaign.

It is reported that as a result of the abovementioned concessions proposed to be offered to the raiyats about 30,000 acres will be brought under the cultivation of kar-ragi and paddy in different parts of the State and a minimum of over one lakh and fifty thousand pallas of ragi will be produced this summer.

The Revenue Commissioner has also forwarded a statement showing the financial implications of the entire scheme according to which a sum of about Rs. 6,00,000 will be required for expenditure under the various heads.

After a careful consideration of the matter, Government are pleased to sanction the proposals, as detailed above, for intensifying kar-ragi and paddy cultivation in the State during the summer of 1949.

The proposal regarding the supply of electric power to Nilsoge is also sanctioned.

The proposal regarding the restriction on the plantation of sugarcane afresh in the Irwin Canal tract from February to June 1949 is reserved for further consideration.

MIR SAFDAR HUSSAIN, *Genl. Secy.*

FOOD SECRETARIAT

Sanctions the revision of scales of pay of the Vaccinators.

READ—

Government Order No. Fl. 2010-70—S. & A. 25-47-6, dated 21st September 1947, sanctioning the revision of scales of the non-gazetted employees in the several Departments of Government.

2. Letter No. C.E. 5-61, dated 1st October 1947, from the Director of Public Health stating that the pay of the Vaccinators of the Public Health Department, Malnad Improvement Vaccinators and also of the Vaccinators working under the Local Bodies have not been revised, that there are three Vaccinators of the Public Health Department in the Closepet Health Centre on Rs. 20—2—30 and 13 Malnad Improvement Vaccinators on Rs. 20—½—25—1—30 directly under the control of the Public Health Department and nearly 100 Vaccinators under the District Boards and Municipalities and requesting sanction for revising the scales of pay of Vaccinators of the Public Health Department to Rs. 35—2—55.

3. Correspondence ending with letter No. C5-283—47-48, dated 18th June 1948, from the same officer forwarding the statement furnishing the views expressed by the Presidents of District Boards and Municipalities in the matter of revision of grade pay of the Vaccinators and forwarding also a proposition statement in respect of the Vaccinators working in the Department.

Order No. M. 12480-504—P. H. 59-47-6, DATED BANGALORE, THE 25TH JANUARY 1949.

Government are pleased to sanction the revision of scales of pay of the Vaccinators of the Public Health Department to Rs. 35—2—55 with effect from 1st January 1947. The Presidents of Municipalities and the District Boards are requested to adopt the same scales of pay in respect of Vaccinators working under them with effect from 1st January 1947.
